International Conference on Neurosurgery & Neurology will be organized on September 28-29, 2020 in Osaka, Japan. [Neurosurgery 2020](#) aims to gather eminent scientists, research scholars, notable neurologists, educationists and professionals to express their views on the latest technologies, trends, and concerns in neuroscience. It focuses on addressing the constant effort being made by scientists and scholars to improve the existing and inventing novel technologies for future.

International Conference on [Neurosurgery & Neurology](#) attendees by giving awards to the best scientific contributors under various categories.

Best Organizing Committee member Award

Best Organizing Committee Member will be given to the one who makes the most significant contribution to the conference.

Best Keynote Speaker Award

Keynote speech is important and is typically given to set the theme for the conference. The most important factor for keynote message success is audience engagement. The keynote speaker needs to capture and hold the audience's attention and set the tone for the entire event. The best keynote participant is honoured by this award.

Best Speaker Award

During the conference, one Best Speaker Award will be selected considering the scientific quality of the work as well as the presentation of the work.

Best Young scientist Award

During the conference, one [Best Young Scientist Award](#) will be selected considering the novel observations and insightful conclusions that exemplify the high quality of student research work and those pursuing Master's degree, PHD or post-doctoral studies are eligible.

Best Poster Award

During the conference, one Best Poster Award will be selected considering the scientific quality of the poster as well as the presentation by the lead author.

Nominations are reviewed by the committee members for each category and recipient's name are declared upon completion of all presentations. There is nothing more gratifying than recognition from peers and colleagues for a job well done. We all strive for acceptance, and recognition is a reflection of belonging. Mark your presence among your peers by joining us as a speaker and giving a talk in the related field of Neurogenetics and Neurogastronomy, Paediatric Stroke and Recovery, Neuroradiology and Neuroimaging, Neuroanaesthesia and Critical Care, Neurophysiology and Neurodegeneration, Neurosurgery and Brain Tumour for Neurosurgery2020 conference at Osaka, Japan during September 17-18, 2020

Mambalikalathil Sarada Menon is an Indian psychiatrist, social worker and the founder of [Schizophrenia Research Foundation \(SCARF\)](#), a Chennai-based non-governmental organization working for the rehabilitation of people afflicted with Schizophrenia and other mental disorders. An Avvaiyyar Award recipient, she is a former Madras Medical Service officer and the first woman psychiatrist in India. The Government of India awarded her the third highest civilian honour of the Padma Bhushan, in 1992, for her contributions to society.

Ganesan Venkatasubramanian is an Indian psychiatrist and clinician-scientist who works as a professor of psychiatry at the National Institute of Mental Health and Neurosciences, Bangalore (NIMHANS). Venkatasubramanian is known for his studies in the fields of Schizophrenia, transcranial Direct Current Stimulation (tDCS), Brain Imaging, Neuroimmunology, Neurometabolism and several other areas of Biological Psychiatry. The Council of Scientific and Industrial Research, the apex agency of the Government of India for

scientific research, awarded him the Shanti Swarup Bhatnagar Prize for Science and Technology, one of the highest Indian science awards, for his contributions to medical sciences in 2018.

Scope and Importance

The conference offers emerging scholar awards to outstanding researchers, exceptional graduates or early academicians who have distinctive enthralment towards the conference themes. The Award strives in providing a strong professional development opportunity for early career academicians—meeting experts in the field, interacting with colleagues from other parts of the world, and creating networks and long-term relations.

It is one of the prestigious awards of the conference [Neurosurgery 2020](#) conference. The experts of neurosurgery having nearly about 10 years of experience are eligible to apply for this award. Part-time research experience would be counted as pro-rata. The experience will be calculated from the date when you received your (first) degree which will give you the title to join doctorate (in the country from where you obtained the degree or any other foreign country), even if the doctorate was never started.

Our goal is to provide our participants with maximum exposure, and we ensure that the meeting is a mix that involves professionals such as Neurosurgeons, researchers, healthcare professionals, research scientists, educational and industrial diagnostic laboratory professionals, making the Neurosurgery 2020 Annual Meeting a great forum.

The conference will be organized around the Theme 'A spot to explore the supreme therapies in Neurosurgery. The aim is to provide an outstanding curriculum covering the entire scope of Neurosurgery and advancements and sharing the cross-cultural experiences of different treatment methods, inventions and developments.

The Scope and the importance of Neurosurgery is being increased enormously due to the outcome of large number of Neurological disorders. The field of Neurology is focusing on the latest advances and their potential impact on the treatment of neurological diseases and disorders. Technological Advancement and Innovation has increased the growth of pharmaceutical industries in the market for the treatment process.

Awards and Benefits

This is a unique opportunity to combine visual and oral explanations of your projects in the form of poster presentation. Three best posters will be awarded at the closing ceremony of the conference. Advancing perfection and perceiving remarkable commitments made by the youthful researchers for their work done essentially during the span of study. Two researchers will be chosen for the Awards. Chances to coordinate with partners around the world.

Advancing perfection and perceiving remarkable commitments made by the youthful researchers for their work done essentially during the span of study.

Find out about career advancement and the most recent research devices and technologies in your field.

Best Young Scientist Award introduction will be named by the board and in the event that they wish to publish the full-length paper, they can publish in supporting worldwide journals of the respective conference at free of preparing charges.

Best posters will be given an opportunity to publish the full work at discounted processing charges in the supporting international journals.
